

MARKING SCHEME
English Language and Literature
(Code No. 184) CLASS-X-(2024-25)
(SET- 3)

General Instructions: -

1. The Marking Scheme carries only suggested value points for the answers. These are in the nature of Guidelines only and do not constitute the complete answer. The students can have their own expression and if the expression is correct, then due marks should be awarded accordingly.
2. If a student has attempted an extra question, answer of the question deserving more marks should be retained and the other answer scored out with a note "Extra Question".
3. If more than one option is mentioned in the answer of multiple choice questions, then no marks to be awarded.

1	SECTION A:READING(20marks)	
I	It emphasizes that personal responsibility is crucial in preserving water resources for future generations / that individual actions, though small, collectively contribute to a substantial impact on water conservation.	1
II	Its importance is not always recognized, leading people to overlook its value	1
III	The writer's idea is supported by the fact that small actions, while minor on their own, can accumulate into substantial water savings when adopted by many people. This collective impact illustrates how individual efforts, though seemingly insignificant, are essential for achieving broader conservation goals and highlights the importance of wide spread participation in water-saving practices.[The response requires evaluation/justification rather than summarization/explanation]	2
IV	b) A student who consistently follows good study practices inspires classmates to improve their own study routines, creating a culture of academic excellence in the class.	1
V	True	1
VI	C .Implementing crop rotation and using organic compost to maintain soil health.	1
VII	Any two points- ▪ Stress the need for businesses to implement water-efficient technologies and methods to reduce their overall water consumption. ▪ Highlight the necessity for policymakers to create and enforce regulations that promote water conservation and address water management issues more effectively. Emphasize the importance of investing in public education and awareness campaigns about water conservation to encourage broader community participation. Urge businesses to take an active role in water conservation efforts as part of their corporate social responsibility, demonstrating a commitment to environmental sustainability	2
VIII	A. A set of beliefs and practices shared by a group	1

8	Answer ANY FOUR of the following in about 40-50 words each.	4x3=12
(i)	-little things in life can make huge changes in life -be positive always -Nature has a healing effect	
(ii)	Boddhidharma ,an ancient Buddhist ascetic, cut off his eyelids because he fell sleepy during meditations. It is said hat ten tea plants grew out of the eyelids.	
(iii)	The Buddha asks Kisa Gautami to find mustard seeds from a house where no one has ever died. Kisa Gautami searches for such a house but is unable to find one. Kisa Gautami realizes that death is inevitable for everyone and that the cycle of life and death is a normal process. She also realizes that her mourning had been self-centered. Kisa Gautami learns that the only path to immortality involves giving up all selfishness.	
(iv)	Anne Frank believed that paper has more patience than people because she felt that paper would listen to her without judgment or interruption, unlike people who might not always be understanding. Anne wrote in her diary while hiding from the Nazis during World War II, and the diary became a trusted companion that helped her cope with the challenges she faced.	
(v)	Mandela believed that courage is the ability to face and conquer fear, rather than being free from it. He believed that brave people should be able to overcome fear, not be fearless. Mandela learned the meaning of courage from his comrades and patriots in the struggle against the apartheid regime. He faced his oppressors in court, knowing they had the power of life and death, and he refused to back down.	
9	Answer ANY TWO of the following in about 40-50 words each.	2x3=6
(i)	Yes, A Question of Trust by Victor Canning is a story about a thief who is tricked into being a victim of his own crime: The story is about two burglars who want to rob the same safe. One burglar, Horace Danby, meets a young woman who pretends to be the owner of the house and needs her jewels for a party. The woman is actually a burglar who tricks Danby into opening the safe for her. The story's message is that people should not trust others without learning more about them. The thief appears dishonest and untrustworthy, but ends up being deceived by someone he thought he could trust. The story explores themes of trust, honesty, and doubt about humanity.	
(ii)	In Footprints without Feet, Griffin became a homeless wanderer because he misused his scientific discovery to commit crimes and exact revenge on those who disliked him: Setting his landlord's house on fire: Griffin took rare drugs that made him invisible and set his landlord's house on fire in revenge for trying to evict him. Attacking and robbing a storekeeper: Griffin was caught sleeping in a London store and attacked and robbed a storekeeper to find warmth and clothes.	

	Stealing money: Griffin stole housekeeping money from a clergyman's desk. Attacking Mrs. Hall: Griffin attacked Mrs. Hall when she entered his room.	
(iii)	Matilda's ruin was caused by her dissatisfaction with her life and her desire to live beyond her means: Dissatisfaction Matilda was unhappy with her life and felt she was born to live in luxury. She wanted to live like a rich person, with good food, jewelry, and dresses. Borrowing Matilda borrowed a diamond necklace from her friend to wear to a ball, but lost it. Matilda could have avoided her ruin by: -Being content with what she had -Living a simple life -Confessing to the necklace's owner, Mme Forestier, and asking for her help	
10	Answer <u>ANY ONE</u> of the following in about 100 – 120 words.	6
	Valli, a character in the lesson "Madam Rides the Bus", has many traits that help her learn from her surroundings and the people around her: Curiosity: Valli is curious about the world around her and asks questions to learn more. Maturity: Valli is mature for her age and understands the importance of making good decisions and being responsible. Confidence: Valli is confident in herself and her abilities and is not afraid to try new things. Self-reliance: Valli is self-reliant and can take care of herself and solve problems on her own. Courage: Valli is courageous and is not afraid to stand up for what she believes in or to face challenges. Determination: Valli is determined and sacrifices a lot of things to achieve her dream. Planning: Valli is a good planner and executioner. Valli learns about the bus ride between her village and the town by listening to the conversations of passengers and occasionally asking them questions. She also saves money for the trip by curbing the temptation to buy sweets and ride on the merry-go-round.	
	OR	
	Yes, hunger can be a strong motivator, and it may have been the driving force behind the young seagull's first flight: Hunger is a powerful motivator Hunger can be a stronger motivator than fear, anxiety, thirst, and social needs. It can also	

	suppress other motivational systems, like thirst and fear, when food is available. Hunger motivated the young seagull The young seagull was afraid of flying, but he was also hungry. When he saw his mother with a fish in her beak, he dived at it without thinking. This action led him to spread his wings and start flying.	
11	Answer <u>ANY ONE</u> of the following in about 100 – 120 words.	6
	In The Book That Saved the Earth, the nursery rhyme Humpty Dumpty frightens Think-Tank because he misinterprets the words "had a great fall" to mean that Earthlings plan to capture him and Mars Central Control: Misinterprets the rhyme: Think-Tank sees a picture of Humpty Dumpty that resembles him, and he is horrified to learn that Earthlings have identified him and want to kill him. Orders retreat: Think-Tank calls back Probe One, drops the idea of invading, and orders his crew to evacuate Mars and head to Alpha Centauri. Saves Earth: The book of nursery rhymes saves Earth from a Martian invasion. He took the rhyme's figurative and imaginative words literally. He misinterpreted that the people of earth have discovered how to combine agriculture and mining.	
	OR	
	Ebright was a curious child who collected rocks, fossils, coins, and butterflies. His mother encouraged him, and his bright mind helped him become a success. Ebright's curiosity and motivation led him to excel in his studies and research, and make significant contributions to science. For example, his high school research on the purpose of the tiny golden spots on the back of monarch pupa led to his theory about cell life. Other qualities that are required to become a successful scientist include: Hard work Sincerity Determination Patience Optimism Accepting success and failure in the right spirit
