ANS-19 (D)

ANS-20 (D)

Answer 21: (A) The global transfer of disease in the pre-modern world helped in the colonization of the Americas because the native Americans had no immunity to the diseases brought by the Europeans:

Isolation-

The native Americans were isolated from the rest of the world for millions of years, so they had no defense against the diseases brought by the Europeans.

Spread -Once the diseases were introduced, they spread rapidly throughout the continent.

OR

(b) Faster transportation

Faster railways, lighter wagons, and larger ships allowed for the cheaper and quicker transportation of food from farms to markets. This made it possible for the poor in Europe to eat more meat, butter, and eggs.

Refrigerated ships

Refrigerated ships allowed for the transportation of perishable foods like meat, butter, and eggs over long distances. This reduced shipping costs and lowered meat prices in Europe.

Q22 Agriculture and industries are interdependent and move hand in hand because they complement each other in many ways:

- Raw materials- Agriculture provides raw materials to industries, such as cotton for textiles, sugarcane for sugar, and animal skin for leather.
- Modernization-Industries have helped modernize agriculture by providing irrigation systems, fertilizers, insecticides, and pesticides.
- Productivity-Agro-industries have increased agricultural productivity.
- Efficiency-The development of manufacturing industries has made agricultural production processes more efficient (ANY TWO)

Q23 -Sinhalese-The largest ethnic group, making up 74% of the population. Most Sinhalese are Buddhists.

-Tamils-The largest ethnic minority, making up 18% of the population. Tamils are mainly concentrated in the north and east of the island. There are two sub-groups of Tamils:

Sri Lankan Tamils: 13% of the population and Indian Origin Tamils: 5% of the population

Q24 Regular elections: Local government bodies were required to hold regular elections.

Reservations: Seats were reserved in elected bodies for:

Scheduled castes and scheduled tribes ,Other backward classes and Women .

Q25 The Roman Catholic Church began keeping an index of prohibited books in the mid-sixteenth century for several reasons, including:

- The church's authority was threatened by the availability of popular religious literature, which led to different interpretations of faith and questioning of the church.
- There was a fear that printed material could lead to rebellion against the state authorities, religious authorities, and the church itself.
- The church faced confusion due to books with different views on Christianity.

Q26- Food shortage: A decrease in the amount of land available for cultivation can lead to a decrease in Agricultural production and food shortages. This can be especially severe in regions where agriculture is the Main source of food.

- Higher food prices: With less land available for cultivation, food prices may increase.
- Unemployment: Farmers and laborers may lose their jobs due to a lack of work.
- Poverty: Poor farmers may become even poorer.

Q27(a) The literacy rate among women is only 54 percent as compared with 76 percent among men.

(b) Similarly, a smaller proportion of girl students go for higher studies. Girls are performing as well as boys in school. But they drop out because parents prefer to spend their resources for their boys education rather than spending equally on their sons and daughters.

(c) The proportion of women among the highly paid and valued jobs is still very small. On an average an Indian women works one hour more than an average man everyday.

(d) The Equal Wages Act provides that equal wages should be paid to equal work. However in almost all areas of work, from sports and cinema, to factories and fields, women are paid less than men, even when both do exactly the same work.

(e) In many parts of India, parents prefer to have sons and find ways to have the girl child aborted before she is born. Such sex selective abortion led to a decline in child sex ratio. (Any three)

Q28 Yes, I agree workers are exploited in the unorganised sector:

- Having no fixed number of working hours. The workers work 10-12 hours without paid overtime.
- They do not get extra allowances apart from the daily wages.
- Government rules and regulations for the protection of laborers are not followed.
- No job security.- Jobs are low paid and the workers in this sector are illiterate, ignorant and unorganised.

OR

Yes, the tertiary sector plays a significant role in the development of the Indian economy because it provides essential services, creates jobs, and contributes to the country's national income:

- Services: The tertiary sector provides many basic services, such as hospitals, educational institutions, post and telegraph services, transport, banks, and insurance companies.
- Employment: The tertiary sector provides a large number of employment opportunities.
- National income: The tertiary sector contributes a lot to the country's national income.
- Foreign exchange: The tertiary sector generates foreign exchange.
- Investment: The tertiary sector facilitates investment.

Q29 The Mahatma Gandhi National Rural Employment Guarantee Act (MNREGA) of 2005 has several Objectives, including:

- The act guarantees 100 days of wage employment in a financial year to eligible adults in rural households.

Adults who apply for employment and are willing to do unskilled manual work are entitled to employment within 15 days.

- The act moves away from past relief programs and focuses on integrated natural resource management and livelihoods generation.
- The act includes a social audit feature to create accountability for performance

(ANY THREE)

Q30 The 1848 revolutions of liberals were a series of revolts and national movements in Europe that sought political, social, and economic change. The liberals were educated middle-class people who opposed the conservative government of Louis Philippe. The revolutions were also known as the "Spring of Nations".

The liberals' ideas included:

Political---Constitutionalism, national unification, parliamentary administration, and a nation-state with a written constitution

Social-----Freedom from birthrights and class-based partialities, and the abolition of bonded labor

Economic---Freedom of markets, right to property, and the abolition of state-imposed restrictions on the movements of goods and capital

The liberals wanted more say in government, and opposed absolute monarchies. They also supported ideas like free trade and capitalism.

In France, the events of 1848 led to the formation of a Republic based on universal male franchise, and the abdication of the monarchy.

OR

The unification of Germany was a process that began in the 1800s and was completed in 1871:

- Nationalist feelings: In the 1800s, middle-class Germans developed strong nationalist feelings.
- Prussia becomes the leader: Prussia became the leader of the unification movement.
- Otto von Bismarck: Otto von Bismarck, the Chief Minister of Prussia, led the process with the help of the Prussian army and bureaucracy.
- Wars: Prussia won wars against Austria, Denmark, and France over seven years.
- German Empire: In January 1871, the Prussian King William-I was proclaimed German emperor in a ceremony at Versailles. The German Empire, also known as the German Reich, was led by the Kingdom of Prussia of Hohenzollerns.
- The unification of Germany was based on the concept of Lesser Germany and created the first nation-state for Germans.

Q31 Land degradation is the process by which land becomes less productive and healthy due to human activities or natural conditions. It can lead to food insecurity, higher food prices, climate change, environmental hazards, and loss of biodiversity. Some methods to control land degradation include:

- **Afforestation**
- **Proper grazing management**
- **Planting shelter belts**
- **Stabilizing sand dunes with thorny bushes**
- **Proper management of waste land**

- **Controlling mining activities**
- **Proper disposal of industrial effluents and wastes**
- **Avoiding over-irrigation**
- **Avoiding overuse of fertilizers and pesticides**
- **Conservation tillage (ANY FIVE)**

OR

Alluvial soil is found in the river deltas of the eastern coast of India. Here are three main features of alluvial soil:

**Fertile:** Alluvial soil is very fertile and is ideal for growing crops.

**Contains nutrients:** Alluvial soil contains adequate amounts of potash, phosphoric acid, and lime, which are good for the growth of crops like paddy and sugarcane.

**Intensively cultivated:** Regions with alluvial soil are densely populated and intensively cultivated.

Alluvial soil is formed by the deposits made by rivers as they flow from their upper course to their lower course. It is made up of various proportions of sand, silt, and clay.

Alluvial soil is found in the deltas of the following rivers: Kaveri, Krishna, Mahanadi, and Godavari.

The alluvial soil of the Ganga plain is light in shade and is shaped by alluvium brought from the Himalayan region. (ANY FIVE)

Q32 The various challenges faced by political parties are shown below:

**Lack of Internal democracy:**

- Every member of the party does not have a say in the decision-making process.
- Before making a decision, no member is consulted.
- There is no proper organization or member registration.
- Power is still concentrated in the hands of a few elite leaders, who do not consult with common members.
- Ordinary members have no knowledge of the party's internal operations.

**Dynastic Succession:** With authority concentrated in the hands of a few top leaders,

OR

Yes, legal organizations have made serious efforts to reform political parties in India:

-Political Parties Registration Act--Passed in 1989, this act requires political parties to register with the Election Commission of India.

- Anti-Defection Law---This law prevents elected MLAs and MPs from changing parties after the election.

- Supreme Court order--This order requires candidates to produce an affidavit with details of their property and criminal cases.
- Election Commission order--This order requires political parties to hold organizational elections and file income tax returns.
- Association for Democratic Reforms--This non-partisan, non-governmental organization works to improve governance and strengthen democracy through electoral and political reforms

Q33 Self-Help Groups (SHGs) are a group of people who pool their savings to provide each other with financial assistance. SHGs play a vital role in the economy by providing access to credit, promoting financial literacy, and empowering women:

- **Providing credit:** SHGs provide members with access to loans at low interest rates without the need for collateral. This helps members start businesses, cover emergencies, and meet their daily needs.
- **Promoting financial literacy:** SHGs help members improve their financial literacy through regular meetings and collective decision-making.
- **Empowering women:** SHGs help women become self-reliant and improve their social status. They also provide a platform for women to discuss their problems and find solutions.
- **Reducing poverty:** SHGs contribute to economic stability and growth by enabling members to save regularly and access affordable credit. This can improve the standard of living for SHG members and their families.
- **Reducing informal borrowing:** SHGs reduce the influence of informal lenders in rural areas.
- **Building social support:** SHGs foster a sense of community and solidarity among members. (ANY FOUR)

OR

The Reserve Bank of India (RBI) supervises banks in a number of ways, including:

- Monitoring cash balance: The RBI monitors that banks maintain a minimum cash balance out of the total deposits they receive.
- Checking loans: The RBI ensures that banks provide loans to small borrowers, small-scale industries, and small cultivators, and not just to profit-making businesses or traders.
- Checking interest rates: The RBI keeps a check on the interest rate of credit facilities provided by banks.
- Requiring details: Banks must periodically provide details about lending, borrowers, and interest rate to the RBI.
- Setting capital adequacy norms: The RBI sets capital adequacy norms.
- Conducting inspections and audits: The RBI conducts inspections and audits.
- Issuing regulatory guidelines and directives: The RBI issues regulatory guidelines and directives(ANY FIVE)

Q34.1 Students and Lawyers

34.2 The effects of Non-Cooperation on the economic front were more dramatic. Foreign goods were boycotted, liquor shops picketed and foreign cloth burnt in huge bonfires.

34.3 Many places' merchants and traders refused to trade in foreign goods or finance foreign trade. As the boycott. Movement spread, and people began discarding imported clothes and wearing only Indian ones,

Q35 .1the availability of water resources varies over space and time, mainly due to the variations in seasonal and annual precipitation, but water scarcity in most cases is caused by over-exploitation, excessive use and unequal access to water among different social groups.

35.2. Irrigated agriculture is the largest consumer of water.

35.3 . **Rajasthan , Tamil Nadu , Punjab, Haryana, and Gujarat**

**Some reasons for water scarcity in India include:**

**Overexploitation , Pollution , Climate change**

**36.1 Per capita income is the average income of a person in a country or geographic region. It is calculated by dividing the total income of a country by its total population**

**36.2. Countries with per capita income of US\$ 12,056 per annum and above in 2017, are called Rich countries.**

**USD 1,035 or less per year Poor country.**

**36.3 Per capita income: The total national income divided by the population**

**Life expectancy: The average age of a person in the country**

**Literacy rate: An important criterion for a country's development**

Answer 37 (a) A- Calcutta B- Chauri-Chaura

Answer 37 1- Mumbai (M.H) 2- Tihri Dam 3- Namrup (Assam) 4- Noida (UttarPradesh)
