	SECTION-A (Reading Skills)	20
Q1.	Read the following passage carefully:	10
	(1) Held every year on 21 May, UNESCO leads the celebration of World Day for Cultural Diversity for Dialogue and Development highlighting not only the richness of the world's cultures, but also the essential role of intercultural dialogue for achieving peace and sustainable development (2) A recent international emergency has proved the intrinsic value of the cultural and creative sector at generating social cohesion, educational resource or personal well-being in times of crisis. It has also underscored the sector's potential to generate economic growth, something which is too often underestimated. (3) With the adoption in September 2015 of the 2030 Agenda for Sustainable Development by the United	

	Nations and the resolution on Culture and Sustainable Development adopted by the UN General Assembly in December 2015, the message of the World Day for Cultural Diversity for Dialogue and Development is more important than ever. The 17 Sustainable Development Goals (SDGs) can best be achieved by drawing upon the creative potential of the world's diverse cultures and engaging in continuous dialogue to ensure that all members of society benefit from sustainable development. (4) Bridging the gap between cultures is urgent and necessary for peace, stability and development. Cultural diversity is a driving force of development, not only with respect to economic growth, but also as a means of leading a more fulfilling intellectual, emotional, moral and spiritual life. This is captured in the culture conventions, which provide a solid basis for the promotion of cultural diversity. Cultural diversity is thus an asset that is indispensable for poverty reduction and the achievement of sustainable development. (5) At the same time, acceptance and recognition of cultural diversity in particular through innovative use of media and Information and Communications Technologies (ICTs) are conducive to dialogue among civilisations and cultures, respect and mutual understanding. (6) In 2001, UNESCO adopted the Universal Declaration on Cultural Diversity. Next, in December 2002, the UN General Assembly, in its resolution 57/249, declared May 21 to be the World Day for Cultural Diversity for Dialogue and Development and in 2015, the Second Committee of the UN General Assembly unanimously adopted the

	resolution on Culture and Sustainable Development, affirming culture's contribution to the three dimensions of sustainable development, acknowledging further the natural and cultural diversity of the world and recognising that cultures and civilisations can contribute to and are crucial enablers of, sustainable development. (7) The day provides us with an opportunity to deepen our understanding of the values of cultural diversity and to achieve the goals of the UNESCO Convention on the Protection and Promotion of the Diversity of Cultural Expressions adopted on 20 October 2005.

Q2	Read the following passage carefully:	10
	(1) Mango (<i>Mangifera indica</i>) is Asia's most popular fruit and it has gained popularity around the world. It has long been a component of culture and religion as a useful and tasty fruit. In addition to taste, it has many good qualities thus making it to be called as 'King of Fruits' Major	

	mango-growing states in India include Andhra Pradesh, Uttar Pradesh, Karnataka, Bihar, Gujarat and Tamil Nadu. Andhra Pradesh and Uttar Pradesh are the leading states in mango production. (2) Mango is grown in an area of 5.58 million hectares of area in the world. India is the largest producer of mangoes with 46.02 and 45.88 percent of the total world area and production, respectively. However, India being the major shareholder in terms of mango production, exports only 0.52% of its total production indicating the huge gap in exporting of mangoes. Peru exports about 46%, Thailand 24%, Mexico 18% and Brazil 11% of their total mango production. These countries are the bigger challenges for Indian mango exports. Hence, efforts are needed to evolve cheap transportation mechanism, increase the trade agreements with major importing countries and enhance the productivity. (3) The top importing country is United States of America, however, India exports only two percent of its total exports to the USA. The USA, European countries, the UK, Malaysia and Russia can be the other hotspots where India can target to export the mangoes. The critical issue for exporting to the USA is transportation cost (due to sea route distance) and limited shelf life of mango, while for Europe transportation costs as well as competition by African countries are the major hurdles. The following chart shows the major export destinations of Indian mangoes in 2019-20.
