2

On the given political map of India point identify places marked A and B

A. Place where a violent incident led to the suspension of non-cooperation movement

B. Place where 1927 session of the Congress took place

SECTION B

GEOGRAPHY (20 marks)

10. Conservation of forest is a key to the survival of human mankind. Some of the practices undertaken in India in this direction is Joint Forest Management. Identify the correct information related to Joint Forest Management.

1. It involves local communities in the management and restoration of degraded forests.

1

2. The programme has been in formal existence since 1980.

3. Jharkhand passed the first resolution for Joint Forest Management.

4. The members of local village communities are entitled to intermediary benefits like non timber forest producers.

Options:

A. 1 and 2 only.

B. 2 and 3 only.

C. 1 and 4 only.

D. 3 and 4 only.

11. Which statement about subsistence farming is false?

1

- A. It is practiced on small land holdings.
 - B. It uses traditional tools.
 - C. Production is mainly for self-consumption.
 - D. It involves large-scale mechanization.
12. Match the dam with the river:-

1

Column A (Dam)	Column B (River)
(a) Bhakra Nangal	(i) Narmada
(b) Hirakud	(ii) Sutlej
(c) Nagarjuna Sagar	(iii) Mahanadi
(d) Sardar Sarovar	(iv) Krishna

Options:

- A. a-ii, b-iii, c-iv, d-i
 - B. a-iii, b-ii, c-i, d-iv
 - C. a-ii, b-iv, c-iii, d-i
 - D. a-iv, b-iii, c-ii, d-i
13. Study the table carefully and answer the following:-

Soil	Feature
a	Cracks develop during dry season
b	Most widely spread soil in India
c	Rich in iron oxide
d	Developed in high rainfall areas

Identify the correct combination.

1

- A. a-Black, b-Alluvial, c-Red, d-Laterite
- B. a-Red, b-Black, c-Laterite, d-Alluvial
- C. a-Laterite, b-Alluvial, c-Black, d-Red
- D. a-Black, b-Red, c-Alluvial, d-Laterite

14. There are two statements marked as Assertion(A) and Reason(R). Mark your answer as per the codes provided below:

1

Assertion (A): Industrial growth has led to regional imbalances in India.

Reason (R): Industries are concentrated in a few regions due to availability of resources and infrastructure.

Choose the correct option:

- A. Both A and R are true and R is the correct explanation of A.
- B. Both A and R are true but R is NOT the correct explanation of A.
- C. A is true but R is false.
- D. A is false but R is true.

15. During a school debate on natural resources, one team argues that India's mineral resources are unevenly distributed due to geological factors. The other team needs to provide specific examples of regions and their associated minerals to support this claim.

1

Statement I: Sedimentary rocks in Gujarat and Assam contain most of India's petroleum deposits.

Statement II: The vast alluvial plains of North India are rich in economic minerals.

Choose the correct answer:

- A. Both statements are false.
- B. Statement I is true, Statement II is false.
- C. Statement I is false; Statement II is true.
- D. Both statements are true.

16 Explain any two factors that are responsible for the concentration of iron and steel industries mainly in Chhota Nagpur Plateau region.

2

17A. Analyses the challenges faced by the farming community in India.

OR

B. Why is agriculture called the backbone of India's economy? Explain.

18. Read the passage below and answer the following:

(2+2=4)

Given the abundance and renewability of water, it is difficult to imagine that we may suffer from water scarcity. The moment we speak of water shortages; we immediately associate it with regions having low rainfall or those that are drought prone. We instantaneously visualise the deserts of Rajasthan and women balancing many 'matkas' (earthen pots) used for collecting and storing water and travelling long distances to get water. True, the availability of water resources varies over space and time, mainly due to the variations in seasonal and annual precipitation, but water scarcity in most cases is caused by over-exploitation, excessive use and unequal access to water among different social groups.

18.1 How do women collect water in Rajasthan and why is water scarcity common there?

18.2 Do you think rainwater harvesting can help? to justify your answer. Give reasons.

19. Map Skill- Based Questions :-

(3)

On the same outline map of India locate and label the following with suitable symbols:

a. Locate and label the soil found in Andhra Pradesh.

b. Identify the Thermal power plant marked as "C".

OR

Identify the Nuclear power plant marked as "D"

c. Locate and label the International Airport at Mumbai.

SECTION C

POLITICAL SCIENCE (20 marks)

20. Considering the expectations and actual outcomes in democracies, which of the following is true about the reduction of inequality and poverty?

1

- Democratically elected governments do not appear to be as keen to address the question of poverty as you would expect them to ✓
- Economic growth in democracies is always accompanied by just distribution of goods and opportunities
- Democratically elected governments are highly attentive to addressing the question of poverty. ✓
- Despite high expectations, democracies do not appear to be very successful in reducing economic inequalities ✓

Options:

- Only i.
- Only iv.
- ii and iv.
- i and iv. ✓

21. Which one among the following pairs is correctly matched?

1

Column-I	Column-II
I. Bharatiya Janata Party	a. National Democratic Alliance
II. Congress Party	b. Regional Party
III. Left Front	c. Communist Party of India (Marxist)
IV. Mizo National Front	d. United Progressive Alliance

Option:

- I-a, II-b, III-c, IV-d.
- I-a, II-d, III-c, IV-b. ✓
- I-d, II-a, III-c, IV-b.
- I-a, II-d, III-b, IV-c.

22. There are two statements marked as Assertion(A) and Reason(R). Mark your answer as per the codes provided below:

1

Assertion (A): Followers of a particular religion constitute one community.

Reason (R): One religion is superior to that of others.

- Both(A) and (R) are true and (R) is the correct explanation of (A).
- Both(A) and (R) are true but (R) is not the correct explanation of (A). ✓

C. (A) is correct but (R) is wrong.

D. (A) is wrong but (R) is correct.

23. What happens if there is a conflict between the laws made by the Union Government and the State Government on the subject of concurrent list.

1

A. The State laws will prevail.

B. The Union laws prevail.

C. The laws will be nullified.

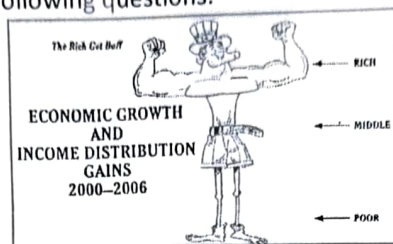

D. The judiciary will decide the outcome.

5

OR

B. A research institute has been tasked with designing a framework to evaluate the performance of political parties in a democratic country. Discuss the key indicators that the institute should consider while designing this framework.

28 Read the passage and answer the following: -

(2+1+1=4)

Decentralisation in India

This new system of local government is the largest experiment in democracy conducted anywhere in the world. There are now about 36 lakh elected representatives in the panchayats and municipalities etc., all over the country. This number is bigger than the population of many countries in the world. Constitutional status for local government has helped deepen democracy in our country. It has also increased women's representation and voice in our democracy. At the same time, there are many difficulties. While elections are held regularly of Panchayats and people participate enthusiastically in it but meeting of gram sabhas are not held regularly.

28.1. Why is Indian decentralisation considered as the largest experiment in democracy?

28.2. Analyse how constitutional status for local government has helped to deepen democracy in India?

28.3. Explain any two steps taken by the Indian Government for decentralization.
